OVERVIEW

Part 1: Slide Type Gallery

SYNAPSE ANALYTICS

$124M ARR with 118% net retention

$124M
ARR

118%
NET REVENUE RETENTION

2,400
ENTERPRISE CLIENTS

34%
YOY GROWTH

92%
GROSS MARGIN

INFRASTRUCTURE

Platform handles 10B+ events daily

10B+
DAILY EVENTS
Processed in real-time

99.99%
UPTIME SLA
Contractually guaranteed

<8ms
P99 LATENCY
Across all regions

47
REGIONS
Global edge network

SERIES B

Scale that proves product-market fit

$124M
ARR
Up from $52M two years prior

2,400
CUSTOMERS
Zero churn in top 200

34%
YOY GROWTH
Organic, no paid acquisition

PRODUCT

Six pillars of the Synapse platform

1 REAL-TIME INGESTION

10B+ events per day via Kafka-native pipeline with sub-10ms P99 latency.

2 AI MODEL HUB

Deploy, version, and monitor ML models with one-click rollback across regions.

3 UNIFIED DATA FABRIC

Federated queries across warehouses, lakes, and operational databases.

4 GOVERNANCE CONSOLE

GDPR, CCPA, and SOC 2 Type II controls built directly into the data layer.

5 AUTOML PIPELINES

Feature engineering to production in hours, not months — no data science required.

6 ENTERPRISE SSO

SAML 2.0 and OIDC integrations with Okta, Azure AD, and Google Workspace.

STRATEGY

Three pillars drive durable growth

LAND & EXPAND
Start with one team, grow to enterprise via proven consumption-based upsell motion with 118% NRR.

PLATFORM LOCK-IN
Deep data integrations and custom model deployments create structural switching costs within 90 days.

ECOSYSTEM FLYWHEEL
340+ pre-built connectors and an ISV marketplace drive incremental ACV without direct sales cost.

MARKET

Four verticals with distinct buying centres

FINANCIAL SERVICES
Risk, fraud, and AML use cases. 180 clients, $38M ARR. Avg contract $210K.

HEALTHCARE & LIFE SCIENCES
Clinical data platforms and pharmacovigilance pipelines. 95 clients, $29M ARR.

RETAIL & CPG
Demand forecasting and personalisation. 410 mid-market clients, $22M ARR.

TECHNOLOGY
Developer infrastructure and MLOps tooling. 1,715 accounts, $35M ARR.

MOAT

Five moats make Synapse structurally

- Data gravity: once pipelines are wired, migration cost exceeds 18 months of ACV
- Model IP: 4,200 customer-trained models live exclusively on Synapse infrastructure
- Network data: cross-customer benchmarking signals improve every model by 12% annually
- Regulatory trust: SOC 2 Type II and ISO 27001 certifications take 24 months to replicate
- Talent density: 38% of ML team is ex-Google Brain, DeepMind, or OpenAI Research

PRICING

Growth vs Enterprise tiers serve distinct

GROWTH ($2K–$20K/MO)

- Up to 500M events/day
- 5 model deployments
- Community connectors
- 99.9% SLA
- Email support
- Self-serve onboarding

ENTERPRISE ($20K+/MO)

- Unlimited event volume
- Unlimited model slots
- Custom connector build
- 99.99% SLA guarantee
- Dedicated CSM + SA
- White-glove onboarding

VALUE

Automation cuts analyst prep time by 80%

Before Synapse

- 3 days to build a feature pipeline
- Manual model retraining weekly
- Siloed data across 12 systems
- 6 engineers per ML project

After Synapse

- Feature pipeline live in 4 hours
- Auto-retrain on data drift signals
- Unified fabric across all sources
- 1 engineer runs 5 models in prod

COMPETITIVE

Synapse outperforms legacy on every axis

	SYNAPSE ANALYTICS	LEGACY VENDOR
Time to first model	**4 hours**	**6–8 weeks**
P99 latency	**<8ms**	**250ms**
Gross margin	**92%**	**61%**
NRR	**118%**	**98%**
Regions	**47 global**	**8 regional**

ROADMAP

From seed to Series B in three years

Q1 2025
Series A Close
$28M led by Sequoia

Q3 2025
1,000 Customers
SMB land-and-expand motion proves out

Q1 2026
Enterprise Tier Launch
99.99% SLA, dedicated CSM

Q2 2026
$100M ARR
Fastest in category

Q3 2026
Series B Close
$180M at $1.4B valuation

Q4 2027
IPO Readiness
Target $300M ARR run rate

HOW IT WORKS

Four steps from raw data to live model

1

CONNECT

Wire your data sources via 340+ native connectors in under an hour.

→

2

ENGINEER

AutoML transforms raw events into model-ready features automatically.

→

3

TRAIN

Distributed training on managed GPU clusters with versioning built in.

→

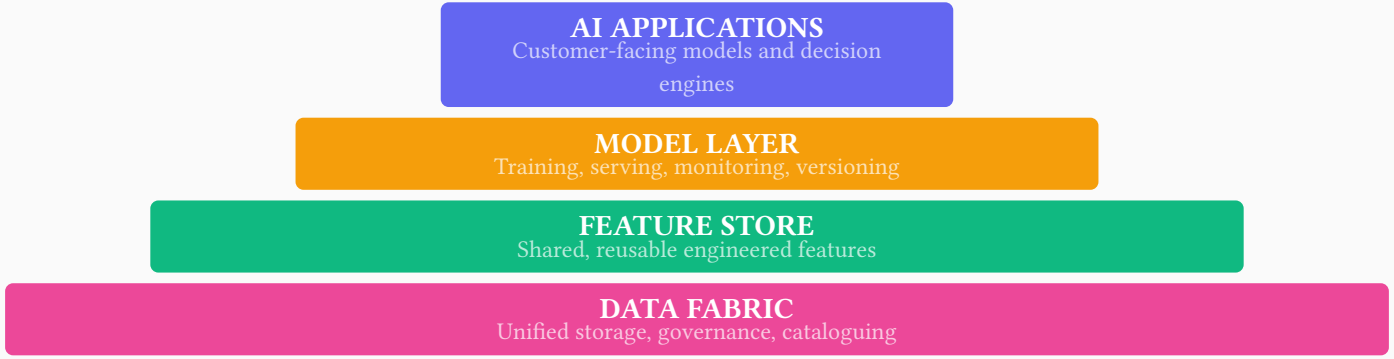
4

DEPLOY

One-click deployment to global edge with real-time monitoring and rollback.

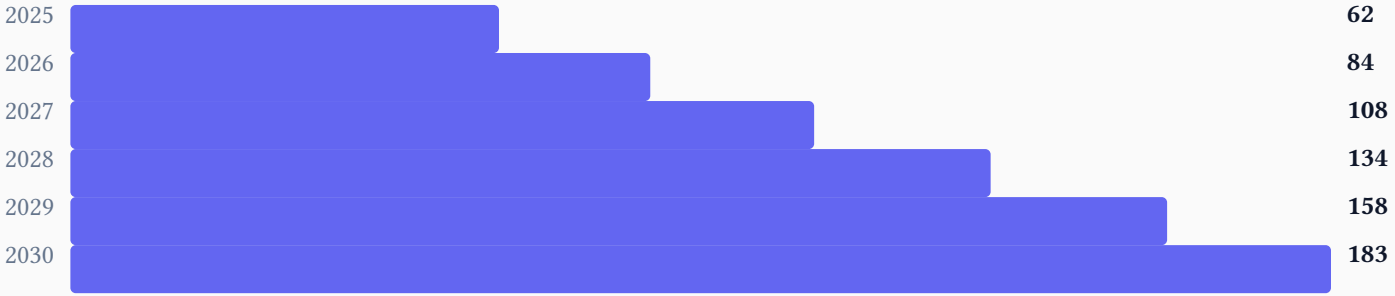
ARCHITECTURE

Synapse stack from storage to insight



MARKET SIZE

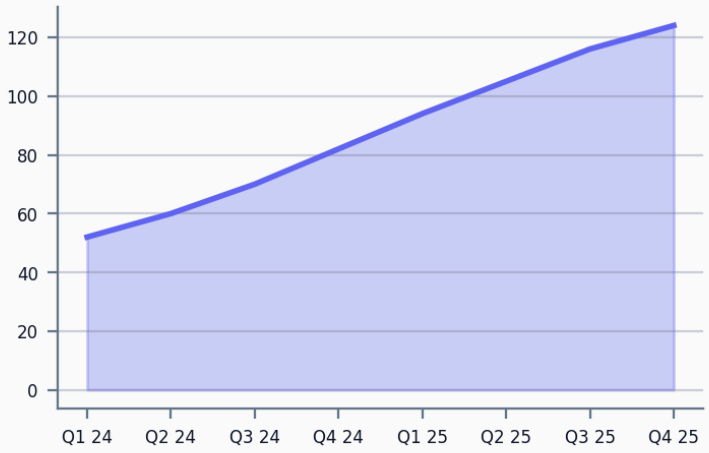
AI infrastructure TAM reaches $180B by 2030



TAM in $B — IDC & Synapse internal estimates

FINANCIALS

ARR compounds at 34% for 8 straight quarters



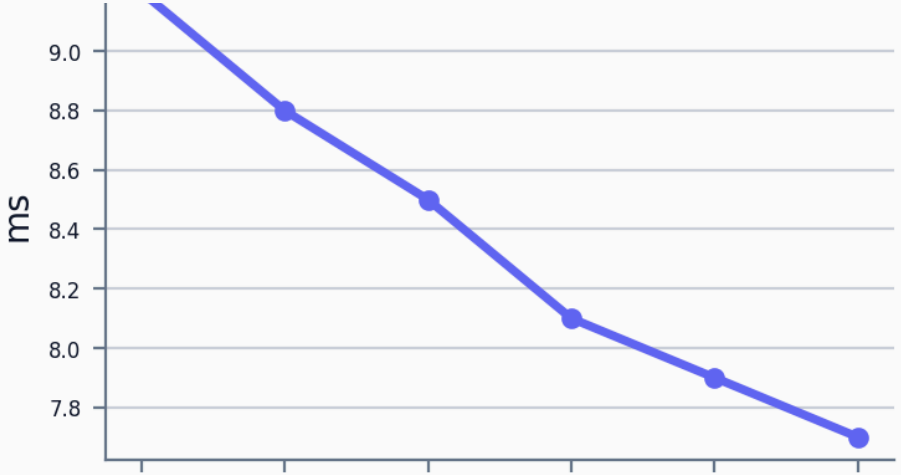
KEY TAKEAWAYS

- Q4-25 ARR $124M, up from $52M eight quarters prior
- Acceleration driven by enterprise tier, Q1-25 launch
- Net revenue retention consistently above 115%
- Zero customer churns in top 200 accounts

8 consecutive quarters of 30%+ YoY growth

OPERATIONS

Platform health green across all metrics



99.99% UPTIME

7.7ms P99 LATENCY

10.4B DAILY EVENTS

- Latency improving month-on-month via edge caching rollout
- Zero SLA breaches in the last 18 months
- Auto-scaling handles 40x traffic spikes without manual intervention

GTM

FinServ and Tech lead pipeline by ACV share

Bars show % of vertical TAM captured

FINANCIALS

P&L improves dramatically at scale

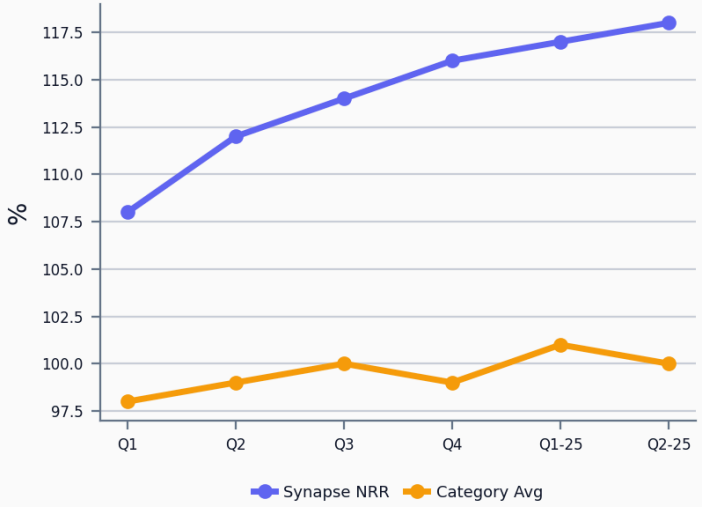
Metric	FY 2023	FY 2024	FY 2025	FY 2026E
ARR ($M)	$52	$82	$124	$168
Gross Margin	74%	82%	92%	93%
S&M / ARR	48%	38%	27%	22%
R&D / ARR	32%	28%	22%	18%
FCF Margin	−38%	−18%	4%	14%

FY 2026E based on current pipeline and cohort expansion assumptions

MARKET

Synapse leads on growth and retention

Net revenue retention trend



Source: Synapse Analytics internal data, Q2 2025

TRACK RECORD

Eight flagship enterprise deployments

Meridian Bank
$4.2M ACV · Fraud detection · 48h ROI

HealthPath Inc
$3.8M ACV · Clinical NLP · FDA-cleared

RetailMax Group
$2.9M ACV · Demand forecasting · 14% margin lift

CloudScale Corp
$5.1M ACV · MLOps platform · 10x model velocity

SOCIAL PROOF

> *Synapse cut our model deployment time from 8 weeks to 4 hours. Nothing else comes close.*

CTO, Meridian Bank

TEAM

World-class team across ML, infra, and GTM

DN

Dr. Priya Nair
CEO & Co-Founder
Former VP Engineering, Google Brain. PhD MIT. Led 200-person ML infra org.

MC

Marcus Chen
CTO & Co-Founder
Ex-Staff Engineer, DeepMind. Architect of the distributed training system at scale.
